

# New life from old tyres

**Every year in the UK,  
we produce  
40 million  
end of life car tyres...**

**...that's 2 a year  
for every home.**

**A recycled tyre still has life left in it**

**42,000  
RECYCLED TYRES**

42,000 recycled tyres needed to make one Olympic sized Astro turf football pitch

**13,500  
RECYCLED TYRES**

13,500 recycled tyres needed to produce an Olympic sized running track

## RECYCLING

Sports pitches  
Play surfaces  
Equestrian arenas  
Carpet underlay  
Moulded/extruded parts

## ENERGY RECOVERY

Fuel for cement/lime kilns

## LANDFILL ENGINEERING

Construction bales  
Drainage

## RETREAD

Previously worn tyres with a new rubber tread applied to their casing.

RRS members are independently audited ensuring that all tyres are collected, recycled or reprocessed providing assurance of best practice at every stage of the process.

**Ensure your tyres are reused responsibly.  
Choose an RRS Scheme member.**
